NOTABLE PROJECTS

[Gravity Coding – Official Website](#) | LIVE PROJECT

React.js, Tailwind CSS, JavaScript, HTML5, CSS3

- Designed and developed the official website of Gravity Coding, focusing on a modern, responsive, and user-friendly interface using React.js. Implemented dynamic sections for users, managers, and admin dashboard, integrated with backend APIs for content management

[GroceryKaro – \(Grocery Delivery website\)](#) | LIVE PROJECT

React.js, Tailwind CSS, JavaScript, HTML5, CSS3

- Designed a high-performance grocery delivery web application inspired by Blinkit, delivering a seamless and intuitive user experience. Built scalable and reusable React components with efficient state management for smooth navigation. Implemented core features such as dynamic product listing, add-to-cart system, and real-time data handling using JSON-server. Designed a fully responsive, mobile-first UI using Tailwind CSS, ensuring compatibility across all devices. Optimized application performance and deployed the project on Vercel for fast and reliable access

[Chat-App \(Live Chat Application\)](#) | LIVE PROJECT

React.js, Tailwind CSS, JavaScript, HTML5, CSS3

- Designed and developed a fully responsive live chat web application with a modern conversational interface and smooth user interaction. Implemented dynamic chat rendering, auto-scroll messaging window, message timestamps, API-based chat data handling, and clean sidebar navigation to enhance real-time messaging experience.
